

Elementary school supply and personal item pick-up

We miss you!

You miss us....and your stuff.

The unexpected end to the school year left us without a proper goodbye, and it left us with all of your child's belongings. We are finally able to say a socially distant goodbye, behind a mask, and allow you to claim your personal belongings. Please follow the instructions below to obtain your child's items. Our elementary teachers have gathered and bagged these items, and we will offer safe, curbside service to families.

Please come to your children's school on the designated day and time listed below, and stay in your car.

Have your children's first and last names (and car rider numbers, if applicable) written on a large sheet of paper so that it can be seen from your car window.

Items not claimed by May 15th will be donated or discarded.

For your safety and the safety of our staff, please stay in your car. We will deliver the items to you. You will not be required to return a second time if you have children in different grades in elementary.

Thank you for your cooperation. All middle school and high school locations will be releasing their own pick-up plans for each site.

Please bring any library books, or other school-owned property. Thank you!
